

ShopSphere

Exchange Policy

Effective date: 1 September 2026

Synthetic RAG demo document - created for learning and testing only. This is not a real company policy.

1. Purpose and Scope

This policy explains when customers may exchange eligible ShopSphere products for a different size, colour, or variant. Exchanges are available only for products specifically marked as exchange-eligible on the product page.

2. Standard Exchange Window

Eligible products may be requested for exchange within **15 calendar days** from the recorded delivery date.

Product category	Exchange window	Key condition
Clothing	15 calendar days	Unused, unwashed, all tags attached
Footwear	10 calendar days	No outdoor wear; original box required
Furniture	7 calendar days	Only manufacturing defect or wrong variant
Electronics	No size/colour exchange	Use Return Policy if eligible

3. Exchange Conditions

- The original invoice or order number must be available.
- The replacement item must be the same product listing; only size, colour, or listed variant may change.
- The product must include original accessories, packaging, labels, manuals, and freebies.
- If the desired replacement variant is out of stock, ShopSphere may offer a return/refund option instead.
- One exchange request is permitted per eligible unit unless the replacement itself is defective.

4. Non-Exchangeable Items

- Personalised or custom-made products.
- Innerwear, opened cosmetics, perishable food, and hygiene-sensitive items after seal removal.
- Products marked Final Sale or Non-Exchangeable.
- Items damaged after delivery due to misuse, unauthorised repair, or accidental damage.

5. Price Difference

A normal exchange does not allow switching to a different product. If a variant has a different listed price because of size or configuration, the customer may be asked to pay the additional amount. If the replacement variant costs less, the difference is returned to the original payment method after successful exchange processing.

6. Pickup and Inspection

Where pickup service is available, the courier performs a basic condition check. Final acceptance occurs after ShopSphere or the seller completes inspection. An exchange can be rejected if the returned product fails the eligibility conditions.

7. Damaged or Incorrect Replacement

If the replacement product arrives damaged, defective, or different from the approved exchange variant, the customer should report the issue within 48 hours of delivery. A fresh replacement or refund may then be offered after verification.

8. Typical Questions

Question	Policy answer
Can shoes be exchanged after 12 days?	No. Footwear has a 10-day exchange window.
Can a shirt be exchanged after 8 days?	Yes, if all clothing eligibility conditions are met.
Can I exchange a phone for another colour?	Not under this exchange policy; electronics follow the Return Policy if eligible.
