Return Policy

Effective date: 1 September 2026

Synthetic RAG demo document - created for learning and testing only. This is not a real company policy.

1. General Rule

Returns are accepted only for products marked Return Eligible. The return window begins on the recorded delivery date and differs by product category.

2. Category Return Windows

Product category	Return window	Important condition
Clothing	3 calendar days	Unused, unwashed, tags attached
Footwear	10 calendar days	No signs of outdoor use; original box
Furniture	10 calendar days	Damage, defect, missing parts, or material mismatch
Electronics	7 calendar days	Only defective, damaged, wrong item, or specified eligible reason
Books	7 calendar days	No writing, tearing, or damage
Perishable food	Not returnable	Refund/replacement only for verified delivery-quality issue

3. Clothing Returns

Clothing items must be requested for return within **3 calendar days** after delivery. Tags must remain attached and the item must not be washed, altered, worn beyond a normal fit check, or stained.

4. Footwear Returns

Footwear may be returned within 10 calendar days if it is tried only on a clean indoor surface. The branded shoe box is considered part of the product and should not be taped, written on, or materially damaged.

5. Electronics

Electronics are not covered by a general change-of-mind return. Eligible reasons include receiving the wrong model, shipping damage, missing essential parts, or a verified functional defect reported within the stated 7-day window. Some products may be routed to authorised service support instead of direct return.

6. Non-Returnable Items

- Personalised or made-to-order goods.
- Opened innerwear and certain hygiene-sensitive products.
- Digital products after access or activation.
- Products marked Final Sale.
- Items damaged by misuse, liquid exposure, unauthorised modification, or improper installation.

7. Inspection

Return pickup does not guarantee final refund approval. The returned item may be inspected for identity, included accessories, packaging, condition, serial number, and the return reason. If inspection fails, the item may be sent back to the customer.

8. Refund After Return

Once a returned item passes inspection and the refund is approved, payment timing follows the separate Payment & Refund Policy. The return window and the refund-processing window are different concepts.

9. Example Scenarios

Scenario	Outcome
Shirt delivered 2 days ago, unused with tags	Return eligible if the item is marked Return Eligible.
Shirt delivered 5 days ago	Outside the 3-day clothing return window.
Shoes delivered 7 days ago, only tried indoors	Potentially eligible within the 10-day footwear window.
Furniture delivered 8 days ago with missing hardware	Potentially eligible within the 10-day furniture window.
