

ShopSphere

Shipping & Delivery Policy

Effective date: 1 September 2026

Synthetic RAG demo document - created for learning and testing only. This is not a real company policy.

1. Order Processing

Order processing begins after payment confirmation or Cash on Delivery validation. Most in-stock orders are prepared for shipment within 1 to 2 business days. Processing time is separate from carrier transit time.

2. Standard Delivery

Standard domestic delivery normally takes **3 to 7 business days after shipment**. Remote areas may require additional time.

3. Express Delivery

Where Express Delivery is offered at checkout, the estimated delivery time is normally 1 to 3 business days after shipment. Availability depends on product, seller, warehouse, destination pin code, and carrier capacity.

4. Delivery Estimates

The date shown at checkout or on the order page is an estimate, not a guaranteed appointment, unless ShopSphere explicitly states otherwise. Weather, public disruptions, address issues, security restrictions, carrier network delays, or high-volume periods may affect delivery.

5. Tracking

Tracking information is provided after shipment. The first carrier scan may take up to 12 hours to appear. A lack of scanning for less than 48 hours does not necessarily mean that the parcel is lost.

6. Delayed Shipment

Situation	Recommended action
No tracking update for under 48 hours	Continue monitoring tracking.
No tracking update for 48+ hours	Contact ShopSphere support for carrier investigation.
Past estimated delivery date	Check latest tracking; contact support if there is no meaningful update.
Carrier marks Delivered but parcel is missing	Check household/security/reception and report to support promptly.

7. Address Problems

Customers are responsible for providing a complete and serviceable delivery address. If a parcel is returned because of an incorrect or incomplete address, re-shipping may require additional payment when the error originated from customer-provided details.

8. Delivery Attempts

The carrier may attempt delivery more than once depending on destination and service type. If all permitted attempts fail, the parcel may be returned to origin. Any resulting refund is processed only after return-to-origin

confirmation and is subject to applicable charges.

9. Damaged Package at Delivery

If a package is visibly damaged, customers should document the condition before opening when possible. Product damage, missing items, or tampering should be reported within 48 hours of delivery with photographs or other requested evidence.

10. Split Shipments

A single order may arrive in multiple shipments from different warehouses or sellers. Each shipment can have a separate tracking number and delivery date. A partial delivery does not necessarily indicate missing products.
