

ShopSphere Orders and Account Help

This guide covers order cancellation, address changes, missing items, and basic account support.

Order cancellation

- An order can be cancelled from My Orders while its status is Confirmed or Preparing for Dispatch.
- Once the order status changes to Shipped, cancellation is no longer available. The customer may refuse delivery where supported or use the return process after delivery.
- A prepaid cancelled order is refunded according to the standard refund timeline.

Changing the delivery address

- The delivery address can be changed only before the order is prepared for dispatch.
- After dispatch, ShopSphere cannot guarantee that the courier can redirect the shipment.

Wrong or missing items

- If the parcel contains the wrong item or an item is missing, contact ShopSphere within 7 calendar days of delivery.
- Keep the outer packaging and shipping label until the issue is resolved because support may request photographs.

Account access

- Customers can reset a forgotten password using the Forgot Password link on the sign-in page.
- For security, ShopSphere support will never ask a customer to share a password, card PIN, or one-time password.

Demo document for the ShopSphere RAG customer-support tutorial. Policies are fictional and created only for the sample application.
