

ShopSphere Payments and Refund Policy

This policy explains supported payments and the normal timeline for refunds after cancellation, return, or exchange adjustment.

Payments

- ShopSphere accepts major credit cards, debit cards, UPI, net banking, and supported digital wallets.
- Cash on Delivery may be offered for eligible products and delivery locations. Availability is shown at checkout.
- An order is confirmed only after the payment gateway reports a successful payment, except for Cash on Delivery orders.

Refund timeline

- After ShopSphere approves a refund, the refund is initiated within 2 business days.
- Banks and payment providers normally take an additional 5 to 7 business days to credit the amount to the original payment method.
- The total time visible to the customer can therefore be longer than the ShopSphere processing time.

Refund method

- Prepaid orders are refunded to the original payment method whenever possible.
- For eligible Cash on Delivery refunds, ShopSphere may request bank account or UPI details through the secure refund flow.
- Shipping or convenience charges are not refunded when the return is caused only by a change of mind, unless the product page states otherwise.

Payment failure

- If money is debited but the order is not confirmed, the payment provider usually reverses the amount automatically.
- If the amount has not returned within 7 business days, contact ShopSphere support with the payment reference.
