

ShopSphere Shipping and Delivery Policy

This policy explains dispatch times, delivery estimates, shipping fees, and what happens when a package is delayed.

Dispatch and delivery estimates

- Orders are normally dispatched within 1 business day after payment confirmation.
- Standard delivery normally takes 3 to 5 business days after dispatch.
- Express delivery normally takes 1 to 2 business days after dispatch where express service is available.
- Remote or rural addresses may require up to 2 additional business days.

Shipping charges

- Standard shipping is free for prepaid orders with a merchandise value of INR 999 or more.
- Orders below INR 999 may include a shipping charge that is shown at checkout.
- Express-delivery charges are shown separately at checkout and are not waived by the free-standard-shipping threshold.

Tracking

- A tracking link is sent by email or SMS after the order is dispatched.
- Tracking information can take several hours to appear after the shipping label is created.

Delays and failed delivery

- Delivery estimates are not guarantees and may be affected by weather, public holidays, courier disruption, or incorrect address information.
- If tracking has not changed for 3 business days, contact ShopSphere support with the order number.
